

CLOUD MIGRATION

IS EASY AND SECURE WITH C-VEN TECHNOLOGIES SOLUTIONS

Choose one of our solutions according to your needs and let us guide you in your digital transformation process.

Microsoft
Partner

ADVANCED
SPECIALIZATION

Windows Server & SQL
Server Migration to
Microsoft Azure

AZURE CLOUD MIGRATION SERVER/DATABASE

1 to 10 SQL instances of VMs /DB

EVALUATION + IMPLEMENTATION + MIGRATION

Assesment with intelligent tool

Azure Component and Initial Configuration
Services Provisioning

Azure On-premises DB-to-DB Mobility and
Compatibility Review

Diagnosis and recommendation of storage
procedures

Database or Server Migration

Testing of functionalities, access, resource
consumption and security

Carbon footprint impact analysis with
migration from premises to cloud (optional)

Implementation times are proportional to the
number of VMs/Database to be implemented

AZURE CLOUD MIGRATION APPLICATIONS

1 to 10s / Applications

EVALUATION + IMPLEMENTATION + OPTIMIZATION

Assesment with intelligent tool

Azure Component and Initial Configuration
Services Provisioning

Azure Execution Diagnostics

Diagnosis and Implementation of application
tests, functionalities and Security

Carbon footprint impact analysis with
migration from premises to cloud (optional)

Implementation times are proportional to the
number of applications

C-ven Technologies Solutions provide a reliable execution path, taking in consideration:
reducing migration time, reducing migration cost and reducing migration risks.
